## IRSE International Technical Seminar & Exhibition 2022

# IRSE International Technical Seminar & Exhibition 2022

---

**THURSDAY 30 JUNE,  
FRIDAY 1 JULY &  
SATURDAY 2 JULY 2022**

**DR. AMBEDKAR  
INTERNATIONAL CENTRE  
NEW DELHI, INDIA**

**A seminar to explore and understand the challenges and successes of the global signalling and communications industry and how India has played its part.**

IRSE UK in association with IRSTE & IRSE India are conducting a Seminar on the 'Age of the Intelligent Railway – A Digital Era' to attract local industry interest and drew a range of international speakers and delegates keen to present India's new ambitious high-speed project and thrive on the world stage using challenges for modern railway construction keeping pace with the new Digital technology.

India is an emerging hub of technical innovation across multiple sectors. The country's growing foothold in the international railway community is a strong reminder of its ability to fully exploit India's technical capabilities. The Indian Railway is offering strong support managing the high cost and risk for improving signalling practice and sharing knowledge with the rest of the world.

## **Key Aims**

The aim of this Seminar is to address the following:

- Making India Atma-Nirbhar for Digital Transformation in Rail Sector
- Providing a world-class railway creating an attractive option for foreign investment.
- Increasing competitiveness, building a globally competitive workforce and attracting top talent.
- Providing service at a lower cost than traditional infrastructure, whilst using innovative private / public funding.
- Monitoring railways to prevent incidents or failures happening before they occur.
- Delivering environmental benefits for the future.
- Transforming people's lives, creating jobs and boosting the economy

## Location

Adhering to the theme for this Presidential year, April 2021 'the age of the intelligent railway', the IRSE has selected New Delhi, India, to host the Seminar, taking into the following consideration:

- Staunch support from the Indian Railways and Metro Railways sections.
- Strong local IRSE/IRSTE (India) membership and professional/industry engagement with local events.
- Corporate interest and financial support for future IRSE(India) and IRSTE events and opportunity or IRSE (UK) to engage with the Indian region.
- Accessibility and attraction for international delegates to attend.
- Availability of good quality venues for seminar sessions, networking events and hotels.

## Getting There

The conference program is planned to be a three-day Programme (30 June - 2 July 2022) and is also tailored for local and site visits. Many airlines provide direct flights from Asian centres and Europe/UK to New Delhi, and it is recommended to travel over the weekend to manage fatigue & jet lag.

- Transport between New Delhi International/National Airport and the city is easy and affordable.
- There is plenty of accommodation in the Central Delhi to suit all range of attendees.
- June is typically a hot time in India, but the venues are well able to accommodate the weather.
- Stringent COVID 19 controls are in place with over one billion inhabitants already vaccinated.

**The Dr Ambedkar International Centre**  
15, Janpath Rd, near Hotel Le Meridien,  
Windsor Place, New Delhi, Delhi 110001,  
India

## Programme

### June 30, 2022 - Seminar Day 1
